# Kids Count in Michigan

## Goals:

- Measure child well-being at the state and local levels
- Use that information to shape public policies and programs
- Improve the lives of children and their families

## Tools:

- County-level profiles
- Data Center
- State and national reports

## Frames:

- Race, place and income matter
- Two-generation approaches

# Overview of the Data Book

# Data into Action

*Use a racial and ethnic equity lens to address disparities and increase opportunities for children and families of color*

- Strengthen policies that support young people in work, such as expanding the EITC age eligibility
- Expand home visitation programs and strengthen the system by implementing a centralized intake process
- Expand healthcare coverage without the five-year wait period for lawfully residing immigrant children as allowed under CHIPRA
- Raise the age of juvenile jurisdiction from 17- to 18-years-old
- Adequately fund public schools and increase access to postsecondary education and credentialing programs
